BREADS

Baking Powder Biscuits

1 cup flour
1 teaspoon sugar (helps brown biscuits)
 $\frac{1}{2}$ teaspoon salt

2 level teaspoons baking powder
2 tablespoons shortening
 $\frac{1}{3}$ cup milk

Sift flour, sugar, salt and baking powder. Cut in shortening until thoroughly mixed with dry material, gradually add milk, and make into soft dough. Roll $\frac{1}{2}$ inch thick with little flour on board, cut with floured biscuit cutter. (A can top may be used as a biscuit cutter.) Bake in hot oven about 12 minutes or until nicely browned.

Cheese Biscuits

In making cheese biscuits, omit 1 tablespoon of shortening and add $\frac{1}{2}$ can of cheese. Proceed as for baking powder biscuits.

Sweet Potato Biscuits

$\frac{3}{4}$ cup mashed sweet potatoes
 $\frac{2}{3}$ cup milk
4 tablespoons melted butter
 $\frac{1}{4}$ cups flour

4 level teaspoons baking powder
1 tablespoon sugar
 $\frac{1}{2}$ teaspoon salt

Mash sweet potatoes, add milk and melted butter. Add dry ingredients, which have been sifted together and make into a soft dough. Turn out on floured board, roll out $\frac{1}{2}$ inch thick, cut with floured biscuit cutter, and bake in hot oven about 15 minutes.

Corn Bread

1 egg
2 tablespoons sugar
1 tablespoon melted shortening
 $\frac{1}{2}$ cup white flour

$\frac{1}{2}$ cup corn meal
 $\frac{3}{4}$ cup of sweet milk
2 level teaspoons baking powder
 $\frac{1}{2}$ teaspoon salt

Sift dry ingredients together. Mix milk and egg together and add to the dry ingredients slowly, mixing well. Add shortening, pour into well-greased pan, and bake in a moderately hot oven.

Sourdough Bread

To make good sourdough bread requires practice. Do not be discouraged if your first few trials are failures. Try again and you will soon acquire the knack of it. Sourdough bread is much more healthful as a steady diet than baking powder bread or biscuits.

To start the sourdough, use an earthen jar, lard bucket, or similar receptacle. Mix 1 cup flour and 2 tablespoons sugar with water to a thin consistency. If quick action is wanted, use part of a cake of yeast (dry or moist) also. Set to one side in a warm (not hot) place until it sours. It will foam up, and may run over the sides of the jar or pail. With practice you can tell when it is sour enough by the smell.

To make bread, take a pan of flour, make a depression in the center of the flour, and pour a quantity of the sour mixture into it. Add a little salt, a little sugar, and a few pinches of soda. Stir together well and knead more flour in until the dough is fairly stiff. Bake in a well-greased pan, having first greased or buttered the tops of the biscuits or bread.

Soda counteracts the acidity of the sourdough. The quantity of soda to use must be learned with practice. Too much soda gives the bread or biscuits a yellow appearance and disagreeable taste.

To replenish the sourdough jar, simply add more flour, sugar and water, stir well, and it will be ready for the next baking.

Excellent hot cakes may also be made with this sourdough batter. Use more sugar than for bread or biscuits. Add a little salt, a pinch or two of soda, stir well, and drop into hot, greased pan. The consistency of the batter should be the same as when making baking powder hot cakes.

Quick White Bread (1 5- by 10-inch loaf)

3 cups bread flour	1 cup lukewarm liquid ($\frac{1}{2}$ cup milk, $\frac{1}{2}$ cup water)
2 teaspoons sugar	3 tablespoons melted lard and butter combined
$1\frac{1}{2}$ teaspoons salt	
$1\frac{1}{2}$ cakes yeast	
2 tablespoons lukewarm water	

Time from start to finish for this is about $2\frac{1}{2}$ hours. In order to achieve these quick results in cold weather the ingredients must be warmed. Sift the flour before measuring and resift with sugar and salt. Dissolve the yeast in lukewarm water and add to the cup of liquid. Stir the liquid into 1 cup of the sifted ingredients. Beat well. Add remainder of flour mixture, stir in the shortening, and blend these ingredients until the dough is smooth and can be handled. Knead on a board a few minutes and form into a ball. Cover the dough with a cloth and let stand in a warm place for 15 minutes. Knead the dough for about 10 minutes, shape into a loaf, and place in a greased 5- by 10-inch pan. Let rise in a warm place for 1 hour or until double in bulk. Bake for about 40 minutes in a moderate oven.

For dark bread use $\frac{1}{2}$ white and $\frac{1}{2}$ graham, whole wheat or rye flour.

Several variations in bread making may be had by adding chopped nuts, prunes, raisins or cooked dried apricots (no juice).

Two-Hour Rolls

2 tablespoons sugar	1 cup lukewarm liquid ($\frac{1}{2}$ cup milk, $\frac{1}{2}$ cup water)
2 tablespoons melted shortening	3 cups sifted flour
1 beaten egg	1 yeast cake (powdered or moist yeast)
$\frac{3}{4}$ teaspoon salt	

Combine all except shortening, which is added after half the flour. Knead until smooth. Let rise until twice its size. Shape into rolls (upon a greased board) and let rise 1 hour. Bake in moderate oven for 20 minutes.

Cinnamon Rolls

Dough (use recipe for Two-Hour Rolls) 1/3 cup butter
1 1/2 teaspoons cinnamon 1/2 cup brown sugar

Turn dough on floured board and roll out to 1-inch thickness. Spread with melted butter, sprinkle with sugar and cinnamon. Roll dough up into a round cylinder-shaped roll, and cut into 1-inch slices. Place in well greased pan and let rise to double their size. Brush tops with melted shortening and bake in moderate oven for approximately 20 minutes.

French Toast

1 egg 1/2 cup canned milk
1/4 cup water salt and pepper to taste

Beat egg, add water and milk. Into this dip slices of dry bread and fry them in hot grease. Serve with maple syrup or jam.

Poached Eggs on Toast

Boil water vigorously. Drop 1 egg from saucer into boiling water, lower heat. With spoon dip boiling water over egg. Cover pan for 2 minutes. Remove egg and serve on buttered toast. Add butter, salt and pepper to taste. Adding about 1 teaspoon of salt or a few drops of vinegar to the boiling water before dropping egg in helps to hold egg together. (Stale eggs will not poach.)

Omelet

3 eggs 3 tablespoons undiluted canned milk
salt and pepper to taste $\frac{1}{2}$ tablespoons melted butter

Beat yolks until creamy, add seasoning and milk. Beat whites of eggs until stiff, cut and fold into yolk mixture. Heat butter in frying pan, pour in omelet and cook slowly. 1 bay leaf (optional)	2 tablespoons grated cheese
1 onion	1 cup buttered bread crumbs
4 cloves (optional)	

Cook the rice in 1 pint of boiling salted water until water is absorbed. Rinse starch from rice with hot water to make it fluffy. Prepare a sauce by cooking the tomatoes and seasonings for 10 minutes and thicken with the blended fat and flour. Make a layer of the rice in a shallow greased baking dish, drop the raw eggs carefully on the rice, pour on the sauce, and sprinkle the grated cheese mixed with the buttered bread crumbs over the top. Bake in a slow oven until the eggs are set.

MEATS, GRAVIES AND SAUCES

Sliced Smoked Ham

Rub thick slice of ham with a mixture of 2 tablespoons flour, 4 tablespoons brown sugar. Place in baking dish, add juice from small can of pineapple, and bake in moderate oven 1 hour.

Boiled Ham With Vegetables

Shank end of ham	3 to 4 carrots
4 small potatoes	salt and pepper to taste
1 head cabbage, cut in 4 pieces	

Place ham in cold water, simmer 1 hour. Drain. Add fresh water to cover and cook until nearly tender. Add potatoes, cabbage, carrots and seasoning and cook 30 minutes. Remove vegetables carefully to avoid breaking.

Italian Ham

1 pound sliced ham	4 small peeled onions
$\frac{1}{2}$ pint canned tomato juice	pepper to taste

Cut ham 1 inch thick. Place in a covered frying or roasting pan. Slice onions over ham and add tomatoes, pepper and $\frac{1}{2}$ cup water. Cover and bake 1 hour in a moderate oven. Remove ham to platter and prepare a gravy of the tomato juice and drippings by adding thickening. (A tablespoon of flour mixed with a little cold water, enough to make a thin paste, to a cupful of gravy.)

Baked Ham and Sweet Potatoes

Mash $1\frac{1}{2}$ cups sweet potatoes and season with salt and pepper to taste. Add a little canned milk, enough to make potatoes hold their shape, and a teaspoon of melted butter. Cut two slices of canned ham $\frac{1}{2}$ inch thick, putting 1 slice in bottom of baking pan. Spread on mashed sweet potatoes and place other slice of ham on top of potatoes. Mix $\frac{1}{2}$ cup of syrup and a tablespoon of butter. Put a few spoons of this over the ham every 10 minutes. Bake for 30 minutes in a moderate oven.

Baked Ham and Irish Potatoes

Place a thick slice of ham in a baking dish. Add thinly sliced raw potatoes which have been sprinkled lightly with flour. Pour over them enough hot milk to cover, add the lid, and bake slowly for about $1\frac{1}{2}$ hours, or until the potatoes and ham are thoroughly cooked. The salt and fat of the ham are sufficient to season the potatoes. If necessary, add a little milk from time to time during cooking, and toward the end remove the lid to let the potatoes brown on top.

If the ham is very salty, soak it, preferably in buttermilk or sour milk, before cooking it with the potatoes. The acid of sour milk will soften the ham and make it more tender when cooked.

Ham Casserole

Slice of ham (1 inch thick)	brown sugar
3 whole cloves (optional)	butter
3 cooking apples	1 cup water

Spread sugar over ham, dot with butter, place in buttered baking dish. Cover with sliced apples, sprinkle with brown sugar, add dots of butter. Pour water over mixture. Bake in moderate oven until ham is tender.

Meat Pie

1 can beef stew (or use roast beef) 2 tablespoons butter
1 small onion, cut fine salt and pepper to taste

Place above ingredients in buttered baking dish, cover with gravy made with meat drippings and 2 tablespoons flour. Any small amounts of left-over vegetables such as carrots, potatoes, string beans, peas, etc., may be added to the stew mixture if desired. Left-over meat, such as ham, roast beef and fried bacon cut in small pieces may also be added. Make biscuit dough, using:

1½ cups flour 3 level teaspoons baking powder
4 tablespoons shortening ¾ teaspoon salt
¾ cup milk

Sift flour, salt and baking powder together. Work shortening into mixture. Slowly add milk and make into soft dough. Roll to ½-inch thickness and place over meat. Bake in hot oven until brown.

Shepherd's Pie

Grease a baking dish and cover the sides with a thin layer of seasoned mashed potatoes. Fill the center with well-seasoned, slightly thickened beef stew without potatoes, with creamed chicken, or fish. Cover the top with mashed potatoes and bake until the pie is hot through and lightly browned on top. A small amount of baking powder or a well-beaten egg adds to the lightness of the potatoes.

Pigs in Blankets

Fold frankfurters or canned vienna sausages into biscuit dough and bake until brown. Make a cream gravy and pour over frankfurters. Serve hot.

Pigs in Blankets de Luxe

Gash frankfurters lengthwise... Put a thin slice of cheese in each gash and spread a little mustard on each side of the cheese. Then roll each frankfurter in a slice of bacon. Secure the bacon at each end with toothpicks. Broil or bake the frankfurters until the bacon is crisp.

Meat Loaf

1 tablespoon melted butter ½ cup bread crumbs
1 tablespoon flour 2 teaspoons chopped parsley (optional)
1 cup milk ½ teaspoon onion juice or 1 tablespoon
1 egg, beaten minced onion
1 cup chopped cooked meat or meat and ¼ teaspoon salt
vegetables

Prepare cream sauce by blending melted butter and flour and adding milk. Cook until thickened and cool slightly. Beat in the egg. Add meat, bread crumbs, parsley, onion and salt and mix well. Place these ingredients in a greased baking dish and bake in a moderate oven for 45 minutes.

Meat Croquettes

Any left-over cooked meat, ground	1 cup milk
1 to 2 tablespoons flour	1 egg
2 tablespoons butter	salt and pepper to taste
cracker crumbs	

Make a white sauce by blending melted butter and flour and adding milk. Cook until mixture thickens. Add seasoning, moisten meat with sauce; form into croquettes, let stand 30 minutes. Roll in fine cracker crumbs, dip into beaten egg, again in cracker crumbs. Fry in deep hot fat. Serve with or without tomato sauce. (For sauce, see page 15.)

Beef and Bean Stew

2 cups canned kidney or lima beans	4 slices diced bacon
1 cup canned tomatoes	1 onion, minced
1 pound boneless stewing meat (or use can of roast beef)	celery salt (optional)
	salt and pepper to taste

Fry bacon and add diced meat, beans, tomatoes and seasoning. Place in buttered baking dish, cover and cook slowly about 2 hours. (If canned roast beef is used, cooking time may be reduced to 1 hour.)

Mulligan Stew

1 can roast beef, cut fine	2 small onions, diced
1 can each of peas, corn, tomatoes and string beans	salt and pepper to taste
2 large potatoes, diced	1 cup catsup
	1 tablespoon butter

Combine ingredients and cook slowly for 1 hour. Add 2 tablespoons flour mixed with a little cold water and cook a few minutes longer to thicken.

Baked Corned Beef

1 can corned beef	1 teaspoon chili powder
whole cloves (optional)	2 tablespoons chopped pickle
$\frac{1}{4}$ cup brown sugar	

Remove corned beef, whole, from the can and stud it with cloves. Make a paste by stirring a little water into the sugar and chili powder. Add pickle. Spread the beef with the paste. Bake in a moderate oven about 10 minutes or until nicely brown.

Corned Beef and Cabbage

1 can corned beef	1 small head cabbage
3 small onions	2 cups hot water
3 small carrots	

Peel, quarter and add the carrots and onions to water. Cook for 30 minutes. Add the cabbage, which has been cut into wedges, place sliced corned beef on vegetables; cover, and cook for 15 minutes more.

Chop bacon. Fry lightly in hot skillet. Heat water to boiling in a saucepan. Stir in corn meal. Add bacon and seasonings. Cook over low heat until very thick, stirring constantly. Transfer to loaf pan (3 x 7 inches) and chill several hours or overnight. Cover with waxed paper to keep crust from forming.

Cut into thin slices. Dip in flour or beaten egg and crumbs and fry in bacon fat in hot skillet. Serves 4 to 6.

For a complete meal serve with scrambled eggs and fried apple slices.

Brown Gravy

1 tablespoon butter or fat in which meat was cooked	1 cup beef broth or boiling water salt and pepper to taste

Add the sifted ingredients to the butter mixture and add vanilla. Beat the batter until it is smooth. Spread the dough in a shallow greased pan. Sprinkle the top with cinnamon, sugar, $\frac{1}{2}$ cup chopped nut meats (optional) and dot with butter. Bake in a moderate oven for about 25 minutes.

The dough may be spread with $1\frac{1}{2}$ tablespoons melted butter; $\frac{1}{2}$ teaspoon cinnamon, $\frac{1}{4}$ cup sugar and 1 tablespoon flour may be combined and sifted over it. This makes a good topping.

NOTES ON BAKING CAKES

1. Ingredients used in cakes must be measured accurately. All measurements given in this book are level unless otherwise stated.
2. All ingredients should be at room temperature. Shortening should be soft but not melted unless recipe specifies melted shortening.
3. When measuring flour, heap it lightly into a cup. Do not shake the cup. Fill it to overflowing, then level off the top with a knife.
4. If flour has been exposed to moisture it will make a "streaky" cake. Spread flour in shallow pans and dry well in a slow oven before using it if there is any doubt about its being dry.
5. Pan should be not more than two-thirds full of batter.
6. Test your cake by inserting a straw. If straw emerges perfectly clean the cake is done. The cake should be lightly browned and should be beginning to shrink from sides of the pan. If pressed with a finger it should at once come back into shape.
7. When cake is done, invert the pan for 5 minutes, then loosen cake from sides of pan with a knife or pancake turner, invert it onto a plate and turn it right side up on a rack so that air may circulate from bottom. This will keep the crust dry and prevent it from becoming soggy. Sprinkle the cake with powdered sugar or cover it with frosting.

Boiled Frosting

$\frac{1}{4}$ cup water
 $1\frac{1}{2}$ cups sugar
2 tablespoons syrup
2 egg whites
1 teaspoon vanilla

Boil water, sugar and syrup together until soft-ball stage. Slowly pour mixture into stiffly beaten egg whites, beating constantly, add vanilla. Beat until frosting is thick enough to spread. In boiling sugar, water and syrup it is well to keep covered the first 10 minutes. This prevents crystals forming.

Soft-ball stage: Drop a little of the boiling syrup into a cup of cold water. When the syrup can be gathered up in the fingers into a soft ball that will almost hold its shape it has reached the soft-ball stage.

Fudge Frosting

2 cups sugar
4 tablespoons cocoa
 $\frac{3}{4}$ cup canned milk
1 rounded tablespoon butter
1 teaspoon vanilla

Blend sugar and cocoa, add milk. Boil until soft-ball stage. (For definition of soft-ball stage, see above.) Add butter. Remove from heat and cool. Add vanilla and beat until creamy. Omit cocoa and you will have creamy white frosting.

Caramel Frosting

1 cup brown sugar
 $\frac{1}{2}$ cup water
2 egg whites
1 teaspoon vanilla

Mix sugar and water and cook to soft-ball stage. Beat egg whites until stiff. Slowly add syrup to beaten whites, stirring constantly, add vanilla. Beat until frosting is thick enough to spread. (See soft-ball stage definition above.)

Brown Sugar Frosting

3 cups brown sugar
 $\frac{1}{4}$ cup butter
 $1\frac{1}{2}$ cups cream
1 teaspoon vanilla

Mix first three ingredients thoroughly. Cook mixture to soft-ball stage (see definition above). Remove from fire and beat until creamy, add flavoring. Ready to use.

Uncooked Frosting

2 cups powdered sugar
4 tablespoons butter
enough coffee to blend
1 teaspoon vanilla

Mix to smooth paste. Spread between layers and on top of cake. Dry cocoa may be added.

Chocolate Filling for Cake

$1\frac{3}{4}$ cups milk
 $\frac{3}{4}$ cup sugar
1 teaspoon vanilla
 $\frac{1}{2}$ cup chocolate dessert
2 egg yolks

Blend $1\frac{1}{4}$ cups milk and sugar, heat until small bubbles appear around edge. Mix chocolate dessert with remaining $\frac{1}{2}$ cup milk, add to hot milk, stirring constantly. Boil about 3 minutes, being careful not to burn. Remove from fire, beat in egg yolks. Cool, spread on cake. Coconut, nuts, raisins may be added.

Cream Filling

$\frac{2}{3}$ cup granulated sugar	1 tablespoon flour
$\frac{2}{3}$ cup milk	$\frac{1}{2}$ teaspoon vanilla
2 egg yolks, beaten	1 tablespoon butter

Cook over low heat to form custard. Cool. Spread between layers of cake. Coconut or chopped nuts may be added.

Lemon Filling

1 cup sugar	1 egg yolk, beaten
$2\frac{1}{2}$ tablespoons flour	1 tablespoon lemon extract
1 cup cold water	1 teaspoon butter

Blend flour and 2 tablespoons of cold water. Boil remaining water, sugar, lemon extract and butter. Add flour mixture slowly. Cook until clear and smooth. Add egg yolk and cook 2 minutes. Remove from heat and cool. Spread between layers of cake.

PIES

NOTES ON PIE BAKING

Pie dough may be made in advance, wrapped in wax paper and chilled. If placed in a refrigerator it will keep for days. Chilled dough will roll more readily than fresh dough.

All the ingredients should be as cold as possible.

Pie dough should be handled lightly and as little as possible. Stop handling it as soon as the dough will hold together. Divide it into two parts (for a double-crust pie), one slightly larger than the other, and keep the smaller part for the top crust. Roll out the larger part for the bottom crust to the thickness of 1/8 inch, using as little flour as possible on the board and on the roller (or roll the dough between sheets of waxed paper). Do not turn dough over on floured board as that works more flour into mixture and causes crust to be tough. Roll the dough from the center out. Lift the roller, do not push it to and fro. Do not stretch the dough. Cut it about 1 inch larger than the pan.

To lift the dough from the board, fold it in half, lay the fold across the center of the pan and unfold it, lightly pressing down to fit pan. Trim off edge that hangs down with a sharp knife. Do not grease the pan, good pie dough makes this unnecessary.

Roll the dough for the top crust, cut it 1 inch larger than the pan, and prick it with a fork in several places, or fold it over and gash it with a knife, to allow the steam to escape. Dampen outer edge of bottom crust with water. Place the top crust on the pie, tuck surplus dough under the lower crust and press it down around the edge with tines of a fork. Cover edge of tin well to allow for shrinkage.

To glaze a pie the top may be brushed with milk, butter, or beaten egg.

Pie crust is flakier when baked in a hot oven to start.

For a one-crust pie make a fluted edge with the dough that laps over. Use a fork to press it down, or pinch it down with the thumb and forefinger. This edge is important as it will help to hold the juices in the pie. If the pie is to be filled with a juicy filling, brush the bottom crust lightly with beaten egg to keep it from becoming soggy.

If a double-crust pie has a juicy filling, two pieces of macaroni, about 3 inches long, placed in the pie through punctures in the upper crust will help to keep the juice from boiling out.

When a lattice top crust is desired, cut long narrow strips of dough with a knife. Place the strips across the top of the pie and moisten them slightly with water where they meet the edge of the bottom crust.

When you want a shell or a pie crust, invert the pie pan and fit the dough over the bottom. Prick it with a fork and press it down lightly around the edge. Cut a round for the top crust, prick it and bake on a baking sheet. Bake pie shells for 12 minutes or until browned in a hot oven.

Too much flour makes crust tough; too much shortening makes it dry and crumbly; too much liquid makes it heavy and soggy.

Definitions for cooking terms you do not understand will be found in the back of this book.

Pie Crust (Two-Crust)

2 cups sifted flour
1 teaspoon salt

1 cup shortening

Sift flour and salt. Cut shortening (with knives, fork or blender) into flour until the pieces are the size of small peas. Sprinkle about 4 tablespoons cold water over flour mixture and work lightly into flour, being careful not to stir too much. Divide into two parts, one slightly larger than the other, and keep the smaller part for the top crust. Press down with rolling pin and gradually roll to about 1/8 inch thick. (See notes on preceding page.)

Pie Crust (One-Crust)

1½ cups sifted flour
½ teaspoon salt

½ cup shortening

Sift flour and salt. Take out ¼ cup of this flour and mix with 3 tablespoons water to form a paste. Cut shortening (with knives, fork or blender) into the remaining flour until the pieces are the size of small peas. Add flour-paste to shortening-flour mixture. Mix thoroughly until the dough comes together and can be shaped into a ball. Press down with rolling pin and gradually roll to a size slightly larger than pie plate and about 1/8 inch thick. (See notes on preceding page.)

Graham Cracker Crust

1½ cups graham cracker crumbs
¼ cup sugar, less if filling is sweet

6 tablespoons melted butter
1 teaspoon cinnamon (optional)

Combine all ingredients. Reserve ½ cupful and place remainder in a deep 9-inch pie tin. Pat it firmly against the bottom and sides of the pan to form a shell. If the crust is to be used at once, bake in a moderate oven for 15 minutes. If the crust has been prepared in advance, chill it thoroughly. It is not necessary to bake a well-chilled crust since it can be baked at the same time as the meringue. After being chilled, or baked, fill the crust with any cooked custard, cream, fresh or dried fruit filling. Cover with meringue (see page 41 for recipe). Sprinkle the rest of the crumbs over the top and bake in a slow oven for 15 minutes. A baked crust is also good filled with sweetened fresh or stewed fruit and topped with whipped cream.

Bread Crumb Crust

1½ cups toasted, sifted bread crumbs
¼ cup sugar

6 tablespoons melted butter
1 teaspoon cinnamon

Combine all ingredients. Reserve ½ cupful and place remainder in a deep 9-inch pie tin. Pat firmly against the bottom and sides of the pan to form a shell. Bake in a moderate oven for 15 minutes before filling. Any of the fillings suggested for graham cracker crust, above, may be used.

Cornflake Pie Crust

1½ cups crushed cornflakes ¼ cup sugar
1/3 cup melted butter ¼ teaspoon cinnamon (optional)

Combine ingredients and press firmly on the bottom and sides of pie tin to form a shell. Chill. To bake or to fill and bake follow recipe for graham cracker crust on opposite page.

Sweet Potato Pie

1½ cups canned sweet potatoes, mashed 1 tablespoon butter
2/3 cup sugar, white or brown ½ teaspoon lemon extract
1 teaspoon cinnamon ½ teaspoon ginger
1 teaspoon salt 2 eggs
2 cups milk

Potatoes should be mashed until soft and smooth. Add beaten egg yolks, cinnamon, ginger, butter, salt and sugar. Mix well. Fill pastry-lined pie tin and cover with a lattice pie crust. Bake in hot oven about 25 minutes or until lattice is brown. Instead of lattice crust, pie, when cool, may be covered with meringue (recipe on page 41), browned lightly in oven, and served hot.

Raisin Pie

1 cup seedless raisins 2 eggs
1 cup water 1 teaspoon grated lemon rind
½ cup sugar 3 tablespoons lemon juice
2 tablespoons butter 1 baked pie shell
2 tablespoons flour

Cook raisins and water very slowly until raisins are nearly tender. Add sugar and cook until raisins are tender. Cool a little of this mixture and stir in butter and flour. Return it to saucepan. Cook and stir these ingredients until thickened. Remove pan from fire. Beat in egg yolks, lemon rind and juice. Fill pie shell with filling. Cover it with a meringue (page 41) made with egg whites. Bake in a slow oven for 15 to 20 minutes.

Apple Pie

2 or 3 cups canned apples, sliced ½ teaspoon cinnamon
 (use apples according to size of ¼ teaspoon nutmeg
 pie pan) butter
1 cup sugar

Line pie pan with pastry. Add apples, sugar and spices. Dot with butter. Roll upper crust, prick with a fork, moisten edge of lower crust on pan, cover with pie dough. Press edges together with tines of fork. Brush top of pie with milk and sugar. Bake about 1 hour in slow oven.

Apple Pie With Melted Cheese

After an apple pie is baked, lay thin slices of cheese or grated cheese over the top and put in a moderate oven until the cheese is melted. Serve at once while the cheese is warm. Either a freshly baked or a cold pie may be prepared in this way.

Apple Turnovers

Roll out pastry dough into rounds about the size of a large saucer. On one-half of the pastry round, arrange layers of thinly sliced fresh apples (or canned apples), sprinkle with a mixture of sugar, cinnamon, and a little salt, and dot with butter. Moisten the lower rim of the pastry, bring the other part over it, press the two edges firmly together with the tines of a fork, and prick the top crust so the steam can escape. Bake in a moderately hot oven for about 30 minutes, or until the apples are tender and crust is browned.

Prune or Apricot Pie

1 cup chopped cooked prunes or apricots, unsweetened	1 tablespoon flour
1 teaspoon lemon extract	$\frac{1}{2}$ cup sugar
1 cup water or juice	2 tablespoons butter

Sift flour and sugar together, add prunes, extract, juice and butter. Cook until thick. Add cinnamon or nutmeg to taste if desired. Pour into pastry-lined pie tin, moisten edge of dough with water, cover with top crust, making openings for steam to escape. Press pastry well over edge and trim. Bake in moderately hot oven until crust is brown.

Cream Pie

2 tablespoons cornstarch or flour	1 heaping tablespoon butter
1 pint hot milk	1 teaspoon vanilla
1 cup sugar	1 baked pie shell
3 eggs	

Beat yolks of eggs, add sugar, cornstarch, hot milk, butter and salt and cook as for boiled custard. Let cool and add beaten whites of eggs and vanilla and pour into baked pie shell. Cover it with meringue (page 41) and bake in a slow oven for 15 to 20 minutes or until meringue is lightly browned. Let cool before serving so filling has time to set. If desired, pie may be covered with whipped cream instead of meringue. Put cream on just before serving.

Spice Pie

Use cream pie recipe above with the following added to the cooked filling:
2 teaspoons cinnamon, $\frac{1}{2}$ teaspoon ground cloves, and $\frac{1}{2}$ teaspoon nutmeg.

Chocolate Pie

2 squares unsweetened chocolate or 4 tablespoons cocoa	$\frac{1}{4}$ teaspoon salt
1 pint milk	2 eggs
3 tablespoons flour	1 tablespoon butter
$\frac{3}{4}$ cup sugar	1 teaspoon vanilla
	1 baked pie shell

Heat the chocolate and milk. Mix the flour, sugar, and salt thoroughly, add some of the hot liquid, mix well, and return to heat. Stir until thickened, cover, and cook for 15 minutes. Beat well. Pour some of this into the beaten egg yolks, combine with the rest of the mixture, and add the butter and vanilla. Pour into a baked pie crust, let stand while making the meringue (page 41). Spread meringue over the chocolate filling to the edge of the crust and bake in a moderate oven for 15 to 20 minutes, or until lightly browned. Serve cold so that the filling has time to set. Instead of meringue, pie may be covered with whipped cream just before serving.

Butterscotch Pie

1½ cups milk	2 eggs
1 cup brown sugar	2 tablespoons butter
3 tablespoons cornstarch	1 teaspoon vanilla
¼ teaspoon salt	1 baked pie shell

Beat egg yolks with sugar. Mix cornstarch with a little water to make a smooth paste. Add paste to egg yolks and add milk and salt. Cook over slow fire until thick. Remove from fire and add butter and vanilla. Cool. Add beaten whites of eggs or reserve for meringue. Pour into baked pie shell. If meringue (page 41) is used, spread on top and return to slow oven to brown.

Pumpkin Pie

¾ cup brown sugar	¼ teaspoon cloves
1 tablespoon flour	1½ cups canned pumpkin
½ teaspoon salt	1½ cups canned milk
1 teaspoon cinnamon	1 well beaten egg
½ teaspoon nutmeg	1 tablespoon molasses (optional)
½ teaspoon ginger	

Mix sugar, flour, salt, cinnamon, nutmeg, ginger and cloves. Add pumpkin, milk, egg and molasses. Stir until smooth. Pour into deep pie pan lined with uncooked pie dough. Have hot oven first 15 minutes, cool down and cook slowly for ½ hour.

Huckleberry Pie

2 tablespoons flour	3 cups huckleberries, washed carefully
¾ cup sugar	

Sift flour and sugar together, add berries and mix well. Pour into pastry-lined pie tin, moisten edge of dough with water, cover with top crust and make openings for steam to escape. Press pastry well over edge and trim. Bake in moderately hot oven for about 45 minutes or until crust is brown. (If canned berries are used, measure a scant ½ cup sugar.)

Custard Pie

1½ cups milk	3 eggs
¼ cup sugar	1 teaspoon vanilla
1/8 teaspoon salt	1 baked pie shell

Scald the milk, sugar and salt over slow fire. Remove from the fire and add slowly to the slightly beaten eggs and vanilla. Pour the hot custard into a deep baked pie crust. Be careful not to fill it too full. Bake in a moderate oven for about 25 minutes or until the custard is set in the center.

Pineapple Pie

2 cups crushed pineapple	1 tablespoon butter
1 tablespoon cornstarch	2 eggs
¾ cup sugar	1 baked pie shell

Combine pineapple, cornstarch and sugar. Cook and stir over slow fire until thick. Add butter. Pour part of this mixture over well beaten egg yolks, beat well and return to saucepan. Stir mixture and let cook and thicken for about

1 minute. Cool. Fill pie shell, cover with meringue (recipe below) made from egg whites and bake in a slow oven for 15 to 20 minutes or until meringue is lightly browned.

Cherry Pie

4 cups canned, pitted cherries (tart) 2 tablespoons butter
2 tablespoons cornstarch or flour 1/8 teaspoon salt
1 cup sugar

Drain cherries. Mix the cornstarch with juice and cook until thickened. Add the cherries, sugar, butter and salt and mix thoroughly. Pour the hot fruit mixture into a baked pastry shell, add the top sheet of dough, and bake in a moderately hot oven for 25 to 30 minutes, or until golden brown. Cherry pie made in this way should have a crisp undercrust. In place of the upper crust, twisted strips of dough may be laid in lattice fashion across the fruit and pressed onto the lower crust at the rim.

Meringue for Pies

2 egg whites 4 tablespoons sugar
1/2 teaspoon vanilla 1/8 teaspoon salt

Beat egg whites until stiff but not dry. Add sugar and vanilla and beat until egg whites will stand in peaks. Pile lightly on filled pie shell and return to slow oven to brown lightly. Let it cool slowly.

A successful meringue depends on constant beating until it is spread, slow addition of the sugar, and the slow oven in which it is baked.

NOTES ON ROLLED COOKY DOUGH

Cooky dough does not need to be rolled, it may be patted out with the palm of the hand.

Chilled dough handles easier than warm dough.

When rolling cooky dough avoid the use of flour if possible. Dough may be rolled between sheets of waxed paper.

A can with the entire top removed makes a good cooky cutter. Flour the can to prevent sticking.

Tutti-Frutti Cookies

1 cup sugar	1 teaspoon baking powder
3/4 cup butter	1 teaspoon vanilla
3 cups oatmeal	1 teaspoon salt
1 1/2 cups flour	3/4 cup milk

Cream butter and sugar, add remaining ingredients and mix well. Roll thin on lightly floured board and cut with biscuit cutter. Place teaspoon of filling (see recipe below) on a round, cover with another round and bake in moderate oven until brown.

Fillings

1. Combine 1 cup apricot jam, 1 cup chopped raisins and 3/4 cup sugar. Cook about 3 minutes.
2. Combine 2 cups chopped raisins or dates, 3/4 cup sugar, 2/3 cup boiling water, 1 teaspoon lemon extract, 4 tablespoons butter and 1/4 teaspoon salt. Boil and stir until thick.

Place teaspoon of filling on a round and cover with another round. (See filling recipes above.) Bake in a moderate oven until nicely browned.

Filled Bars

Cover bottom of a greased pan with a very thin layer of cooky dough (use recipe above). Spread it with a filling (jam, raisins, nuts, dates, etc.). Cover with a very thin layer of cooky dough. Bake in a moderate oven until nicely brown. While cake is still warm, cut into bars.

Sugar Cookies

Bake on greased pan in hot oven for 10 minutes or until lightly browned.

Shortbread

1/2 cup sugar	2 cups flour
1 cup butter	1/4 teaspoon salt
1 teaspoon vanilla	1/4 teaspoon baking powder

Cream butter. Add sugar gradually and beat until creamy. Add vanilla. Sift and work in with hands flour, salt and baking powder. Roll dough to about 1/3 inch thick and cut into squares. Bake on greased baking sheet in a moderate oven for about 20 minutes.

Potato Doughnuts

1/4 cup shortening	4 cups flour
1 cup sugar	3 teaspoons baking powder
1/2 teaspoon salt	1/2 teaspoon nutmeg
2 eggs	1/2 teaspoon soda
1 cup mashed potatoes	1 cup sour milk

Blend together shortening, sugar, salt and eggs. Stir in freshly cooked mashed potatoes. Sift flour with baking powder, nutmeg and soda and add alternately with sour milk. Roll out dough to 1/2 inch thick on lightly floured board. Cut with doughnut cutter. (A biscuit cutter and the top of a salt shaker for cutting inside hole make a good substitute for a doughnut cutter.) Fry in hot fat in kettle or deep skillet. As soon as doughnuts rise to surface, turn with a fork. Turn frequently until brown on both sides. Drain on absorbent paper. Makes 2 1/2 dozen.

Smoky's Doughnuts

1 cup sugar	2 cups flour
3 eggs	3 teaspoons baking powder
1 cup milk	2 tablespoons hot lard

Beat eggs and sugar lightly and stir in milk. Add sifted flour and baking powder. To this mixture add the 2 tablespoons of hot lard. Then add enough flour, about 2 cups, to make a soft dough that can be rolled out on board. Do not make too stiff. Roll dough 1/2 inch thick and cut with doughnut cutter. Have fat 3 or 4 inches deep and smoking hot. Drop in 3 or 4 doughnuts at a time. When they rise to the surface turn frequently with a fork until brown on both sides. Drain on absorbent paper and dust lightly with powdered sugar.

Cook bacon until crisp. Lightly brown onion and green pepper in fat. Beat eggs with milk and seasonings. Add bacon, broken into small pieces. Cook over low heat, stirring constantly, until set. Makes four sandwiches.

Toasted Cheese

Spread two slices of bread lightly with butter. On unbuttered side place slice of cheese. Place second slice of bread over cheese with buttered side out. Put sandwich in skillet and brown on both sides. Do not melt cheese too much.

Novelty Sandwiches

1. Baked beans, chili sauce, thinly sliced onion or pickle.
2. Peanut butter and tart jelly.
3. Blend peanut butter and mayonnaise, spread on whole-wheat bread and top with finely grated carrot.

Broiled Ham Sandwiches

Butter eight slices of bread. Combine 2 tablespoons chopped cucumber pickle with $\frac{1}{2}$ cup grated American cheese and $1\frac{1}{2}$ tablespoons mayonnaise. Slice one-half of square 12-ounce can pork-ham luncheon meat $\frac{1}{4}$ inch thick. Place meat slices on unbuttered side of bread and spread with cheese mixture. Cover with slice of bread with buttered side out. Put sandwiches in skillet and brown on both sides.

Cheese Sandwiches With Bacon (Open-Face)

Toast four slices of bread on one side. Place slices of cheese on the untoasted sides and spread the cheese with mustard or chili sauce. Cover each sandwich with two slices of bacon. Arrange sliced stuffed olives between the bacon slices. Bake the sandwiches in a moderate oven for 10 minutes or until the bacon is crisp. Serves four.

Tuna Squares

Combine 1 cup grated-style tuna, $\frac{1}{2}$ cup chopped cucumber, 1 tablespoon grated onion, 2 teaspoons lemon juice, $\frac{1}{4}$ cup chopped green pepper, $\frac{1}{2}$ cup chopped celery, and salt, pepper, and paprika to taste. Moisten with $\frac{1}{4}$ cup mayonnaise. Spread on bread buttered with lemon butter.

Lemon butter: Cream $\frac{1}{2}$ cup butter, add grated peel of 1 lemon, $1\frac{1}{2}$ tablespoons lemon juice, and 1 tablespoon grated onion.

Pineapple Cheese Wafers

Blend one 3-ounce package cream cheese with 3 tablespoons salad dressing, add $\frac{1}{2}$ cup chopped nut meats and $\frac{1}{2}$ cup drained, crushed pineapple. Spread on crisp crackers or slices of buttered whole-wheat bread. Makes $1\frac{1}{2}$ cups of filling.

Combination Sandwiches

Mix together $\frac{1}{4}$ cup diced American cheese, 2 tablespoons cream, $\frac{1}{4}$ teaspoon dry mustard and $\frac{1}{4}$ teaspoon paprika. Cook this mixture over boiling water, stirring until cheese is melted. Cover and cool. Stir in $1/3$ cup ground lunch meat (frankfurters, weiners, bologna, canned lunch meat or left-over cooked meat). Makes sufficient for two large sandwiches.

Mock Chicken Sandwiches

Place contents of 1 can of tuna fish in a strainer and pour 2 cups of boiling water over it. Drain well and combine with well-seasoned mayonnaise. Place between buttered slices of bread. Lettuce leaves may be added.

CANDY

NOTES ON MAKING CANDY

A pan that holds about four times as much as the ingredients used lets the syrup boil without running over.

Sugaring of candy may be avoided by adding 2 or more tablespoons of corn syrup to any recipe. Add water to sugared candy and boil it again.

Most of the following recipes call for syrup to be cooked to the soft-ball stage. Drop a little of the boiling syrup into a cup of cold water. When syrup can be gathered up in fingers into a soft ball that will almost hold its shape, it has reached the soft-ball stage. When the syrup can be gathered into a ball that will hold its shape it has reached the firm-ball stage. When the syrup cracks when knocked against the side of the cup it has reached the brittle or hard-ball stage.

Fudge

2 cups sugar	1 tablespoon butter
4 tablespoons cocoa	1 teaspoon vanilla
3/4 cup canned milk	

Mix sugar and cocoa, add milk. Place on stove and stir until sugar is dissolved. Boil to soft-ball stage. Add butter. Remove from stove and let cool. Do not move pan while cooling or fudge will become sugary. When outside of pan is cold, add vanilla and beat until creamy. Pour in buttered pan and allow to harden.

Panocha

3 cups brown sugar	1 teaspoon vanilla
1 cup milk	1 cup chopped nuts (optional)
1 tablespoon butter	

Put sugar and milk into a pan and cook to the soft-ball stage, remove from the fire, add butter and vanilla, cool without stirring. When lukewarm, beat until creamy. Stir in nut meats. Pour in buttered pans and when hardened cut into squares.

Divinity

2 cups sugar	1 cup chopped nuts
1/2 cup white corn syrup	1 teaspoon vanilla
1/2 cup water	2 egg whites

Boil sugar, syrup, water until a little of the mixture dropped in cold water turns brittle. Pour slowly over stiffly beaten egg whites, add nuts and flavoring. Beat until mixture is creamy. Pour on buttered platter and cut into squares.

Butterscotch

3 cups brown sugar	$\frac{1}{4}$ tablespoons water
2 tablespoons corn syrup	$\frac{1}{4}$ teaspoon salt
4 tablespoons (heaping) butter	1 teaspoon vanilla
2 tablespoons cream	

Boil sugar, water, corn syrup and butter to soft-ball stage when tested in cold water. Add salt and cream, cook to hard-ball stage. Remove from fire, add vanilla. Pour into greased pan, and cut into squares when cool.

Peanut Butter Candy

$\frac{1}{2}$ cup sugar	$\frac{1}{2}$ cup peanut butter
1 cup brown sugar	$\frac{1}{2}$ cup coconut
1 cup milk	few drops of vanilla

Boil sugar and milk to soft-ball stage. Take off stove and add peanut butter, coconut and vanilla. Beat until creamy. Pour into greased pan and put in a cool place to harden.

Cream Caramels

2 cups sugar	1 tablespoon butter
1 cup cream	

Stir and cook above ingredients slowly to soft-ball stage. Remove from fire and cool. Beat until creamy and pour on buttered platter. Cut into squares before it hardens.

Coconut Squares

2 cups sugar	1 cup shredded coconut
2 tablespoons butter	1 teaspoon vanilla
$\frac{1}{2}$ cup milk	

Combine sugar, butter and milk and stir over hot fire until sugar is dissolved. Then cook slowly and stir constantly until soft-ball stage is reached. Remove from fire and add coconut and vanilla. Beat candy until creamy and pour in a buttered dish. Cut into squares at once.

BEVERAGES

Boiled Coffee

Use 2 level tablespoons all-purpose grind to 1 standard measuring cup of water. (Eggs help to make coffee clear - mix slightly beaten egg with dry coffee, using 1 teaspoon beaten egg to every 2 tablespoons coffee.) Place coffee in pot, add cold water and slowly bring to a boil, stirring occasionally. Immediately remove from heat, add $\frac{1}{4}$ cup cold water to settle grounds, and let stand in warm place 5 minutes.

Tea

Use fresh boiling water. Use 1 teaspoon or less of tea to a cup of water, according to taste. Add boiling water and steep for 5 to 10 minutes or until it is the desired strength. Do not boil. (Cool for iced tea.)

Cold Water Iced Tea

Fill a quart fruit jar with cold water. Add 2 tablespoons tea. Place the jar in the sun for 2 hours, strain the tea at once, replace it in the fruit jar and keep it in a cold place ready for use.

Cocoa With Evaporated Milk

$\frac{1}{2}$ cup evaporated milk	1 to 2 teaspoons sugar
$\frac{1}{2}$ cup boiling water	$\frac{1}{4}$ teaspoon vanilla or $\frac{1}{8}$ teaspoon
1 tablespoon cocoa	cinnamon (optional)
dash salt	

Mix cocoa, sugar and salt, add water and cook 3 minutes. Stir in milk and heat to boiling but do not boil. Add vanilla or cinnamon. Beat until foamy and serve hot.

Hot Chocolate

2 1-ounce squares unsweetened chocolate	dash of salt
1 cup hot water	3 cups milk
3 to 4 tablespoons sugar	

Melt chocolate in water. Add sugar and salt. Cook over direct heat 4 minutes, stirring constantly to avoid scorching. Add milk gradually and heat thoroughly. Beat until frothy just before serving.

Chocolate Syrup

Combine $\frac{1}{4}$ cup cocoa, $\frac{3}{4}$ cup sugar, $\frac{1}{8}$ teaspoon salt, and $\frac{1}{2}$ cup water; cook 5 to 7 minutes. Remove from heat and add 1 teaspoon vanilla extract. Store in cold place. Use 2 tablespoons syrup to 1 cup of milk for breakfast cocoa or other chocolate beverages.

Lemonade

1 cup water
1½ tablespoons lemon juice

3 to 4 tablespoons sugar
dash salt

The sugar and water need not be boiled but the quality of the lemonade is improved if they are. Boil the sugar and water for 2 minutes. Chill the syrup and add the lemon juice. Orange, pineapple, raspberry, loganberry, grape juice and other fruit juices may be combined with lemonade. Chilled tea may be added to these combinations in any quantity desired.

Orange Milk Punch

¼ cup orange juice
¾ cup milk

1 teaspoon sugar

Combine above ingredients and beat well. Chill. Beat again before serving. Serves one.

Eggnog

1 egg
¾ cup milk
½ teaspoon vanilla

1 teaspoon sugar
1 pinch salt

Beat the egg yolk until thick and lemon colored, add sugar, salt and flavoring. Add milk and shake well. Fold in egg white which has been beaten light but not stiff. Pour into glasses and sprinkle lightly with nutmeg.

HELPEFUL HINTS

Cleanliness is one of the foundations for all good cookery. Dishes and cooking utensils should be washed thoroughly with plenty of soap and thoroughly scalded with boiling water before drying.

Oven temperatures for baking:

Slow oven	250° F. to 350° F.
Moderate oven	350° F. to 400° F.
Hot oven	400° F. to 450° F.

For those who have no oven thermometer here is a practical test: Set a pan sprinkled with flour in the oven and if it becomes a delicate brown in 5 minutes, the oven is slow. If the flour turns a medium, golden brown in 5 minutes, the oven is moderate. If the flour turns a deep, dark brown in 5 minutes, the oven is hot.

Grease kettle about 2 inches down from upper edge when cooking fruit or candy and it will not boil over.

Cut hot bread or cake with a hot knife to prevent crumbling.

A large, smooth bottle may be used as a substitute for a rolling pin.

When you have those baking powder biscuits all ready for the oven, press a tiny piece of butter down into the center of each and note the improvement when you eat them.

If soup is too salty, add slices of raw potato, boil and remove potato slices.

To prevent milk from scorching so easily, rinse pan in hot water before pouring in milk to heat.

To prevent cheese from molding, wrap in a cloth wrung out of vinegar. Then roll in paper.

In cooking vegetables, cover those that grow under the ground, leave uncovered those that grow above the ground. Cook vegetables slowly in not too much water.

In using old bacon much of the strong taste disappears if bacon is trimmed closely. Allow bacon to parboil for several minutes in water to which a teaspoon of baking soda has been added to a quart of water. Drain, rinse off and fry.

In using old ham, trim off outside, parboil in water and soda as above, after which boil ham for 5 or 10 minutes in water to which $\frac{1}{2}$ cup vinegar has been added to each quart of water. Drain and cook as desired. Using this method, old ham regains much of its original flavor.

A pinch of soda stirred into milk that is to be scalded will keep it from curdling.

To sour milk: (1) Open a can of milk, let it stand where warm until sour.
(2) A teaspoon of vinegar to $\frac{1}{2}$ cup of milk will sour the milk instantly.

By turning pan upside down and placing a cold wet cloth over pan, a cake may be removed without its sticking to the pan.

By setting a dish of water in the oven when the cake is baking, scorching or burning the cake may be prevented.

To brown a custard pie evenly, sprinkle a little sugar over the top before putting into the oven.

If it appears that food has been scorched, lift the vessel holding the food from the fire and allow it to stand in a pan of cold water for a few minutes. In almost every case the scorched taste will entirely disappear. Clean the pan by placing an inch of water in it, adding 1 teaspoonful or more of soda, and heating the water to the boiling point.

In making bread or rolls, put a saucepan of boiling water into the oven. The steam will keep the crust smooth and tender.

Boiling liquids may be turned into glass containers without breaking the vessel if the bowl of a spoon is pressed on the bottom of the container and the hot liquid poured on the spoon.

Tough meat may be made tender by pounding, slow cooking, or allowing it to lie a few minutes in vinegar water. Use $\frac{1}{2}$ cup vinegar to a pint of water to make vinegar water.

An improvised refrigerator for fresh vegetables can be made as follows: Put about 1 inch of water in a large, shallow pan. Place lettuce, celery, etc., in pan. Wring a coarse towel or cloth out of cool water and drape over the top so that the cloth touches the water and there is continual evaporation. This keeps the vegetables moist and cool.

Unused portions of food may be left in the open can if it is covered and stored in a cool place like any other cooked food. Some acid foods, if left in a can, act on the metal of the can and acquire an astringent but harmless taste.

Bulging cans indicate spoilage and contents should not be used. An accumulation of rust on the outside of cans does not harm the contents unless the can rusts through and leaks. Unless a dent has caused a can to leak, the contents of the can are safe to use.

Canned goods should be stored in a dry place, the cooler the better, but not below freezing. Freezing may change the appearance of canned foods but does not change the nutritive value.

FOOD FACTS

How to Use Left-Overs

The secret of success in cooking for one or two depends to a great extent for its solution upon the ability to use left-overs at successive meals. In using surplus food, it is important to supply whatever is lacking. If dry, moisten; if lacking any particular flavor, season well or mix with something that will give it a distinctive and appetizing taste; if food is hard, it needs to be softened.

With left-over meat add, according to your taste, mushrooms, a few slices of potato, an onion or two, small cubes of any kind of vegetable, a few slices of bacon, or a few left-over sausages. If you wish an entirely different dish, take meat left-overs, mix with butter and vegetables, and fry. Bacon and sausage need no fat added for frying.

Any left-over fruit may be utilized for fruit roll by making biscuit dough and rolling the fruit in the dough and baking.

Left-over biscuit dough may be used in preparing meat pie. (See recipe on page 12.)

Left-over cooked cereal may be cut into slices and fried slowly until brown in bacon drippings. Serve with syrup or jelly.

If you have left-over cake, make a sauce and have pudding for the next meal.

Dissolve bits of jelly and jam with a small amount of boiling water and use them for pudding sauces.

Pancake batter combines well with meat, fish or vegetables. Add $\frac{3}{4}$ to 1 cup of finely minced left-over food to batter, cook and serve them with cream or other sauce, or gravy, etc.

Stale or dry bread may be used in bread pudding, toast, french toast, cinnamon toast, or stuffing for meat. Bread crumbs may also be used as a substitute for cracker crumbs. To make bread crumbs, place stale bread in a slow oven. When it is dry crush it with a rolling pin and place the crumbs in a covered container.

How to Use One Recipe in Different Ways

Often a full recipe can be made and used in many different ways.

A rich baking powder biscuit dough may be used for shortcakes, toasted biscuits; coffee cake may be made by spreading dough with melted butter, cinnamon and sugar.

Pie dough can be used in making tart shells for meat or dessert, cheese strips for soup or salad, and jam turn-overs for afternoon lunches.

Cake batter may be baked as loaves, layers, sheets or cup cakes, or as cottage pudding, to be served hot with a sauce. A fruit mixture may be added to the batter to make a fruit cake or spices may be added to make a spice cake.

Measurements

All the measurements in this cookbook are level unless otherwise specified.

Be sure to measure amounts correctly, otherwise your cooking may be a failure. For instance, if you have:

Too much flour in a cake, it will cause it to be dry and crumbly, bread will be solid and heavy, and sauces will be thick and pasty.

Too much fat will make cakes oily and may cause them to fall. It will make grease-soaked doughnuts, and greasy gravies and sauces.

Too much sugar will make a cake with a hard crust, or a sticky cake. It makes a soft, sticky jelly.

Too much liquid causes cake to fall easily.

Too much soda gives a disagreeable taste and discolors bread and cake.

A Measuring Stick for Your Meals

An adult's daily meals should contain:

Milk. 1 pint. Either as a beverage or as a part of soup, sauce, main dishes, hot cakes, on cereals, desserts, etc.

Fruits and Tomatoes. 1 or more servings of citrus fruits (orange, lemon, grapefruit) or their juices, fresh pineapple, canned pineapple or juice, tomatoes, tomato juice, or any raw fruit or vegetable rich in Vitamin C.

Breads and Cereals. 2 servings of whole grain or products made with enriched flour.

Meat, Poultry, Fish. 1 or more servings.

Sweets. Add to satisfy the appetite when a sufficient amount of protective foods has been eaten.

Water. 6 to 8 glasses, unless a doctor advises against it.

Guide for Meal Planning

Using the whole day as a unit, and giving the matter a little reasonable thought and interest, it is entirely practical to prepare well-balanced meals from Forest Service rations.

These lists have been compiled to conform, as closely as possible, with the 45 man-day ration list, and are necessarily concerned with canned and nonperishable foods; however, when fresh fruits and vegetables are available, they should be used as their vitamin, mineral content, and roughage values are great.
