**FOR THE**

**FISCAL YEAR ENDING SEPTEMBER 30, 1976,**

**AND SUBSEQUENT ACTIONS TO OCTOBER 22, 1976**

**FOREST SERVICE**

**U. S. DEPARTMENT OF AGRICULTURE**

ACT OF MARCH 1, 1911 (36 STAT., 961), AS AMENDED

SEC. 4. That a Commission to be known as the National Forest Reservation Commission, consisting of the Secretary of the Army or as an alternate, the Chief of Engineers of the Army, the Secretary of the Interior, the Secretary of Agriculture, and two members of the Senate, to be selected by the President of the Senate, and two members of the House of Representatives, to be selected by the Speaker, is hereby created and authorized to consider and pass upon such lands as may be recommended for purchase as provided in section six of this act, and to fix the price or prices at which such lands may be purchased, and no purchases shall be made of any lands until such lands have been duly approved for purchase by said Commission: Provided, That the members of the Commission herein created shall serve as such only during their incumbency in their respective official positions, and any vacancy on the Commission shall be filled in the manner as the original appointment.

SEC. 5. That the Commission hereby appointed shall, through its president, annually report to Congress not later than the third day of January, the operations and expenditures of the Commission, in detail, during the preceding fiscal year.

PERSONNEL OF THE NATIONAL FOREST RESERVATION COMMISSION

Hon. Martin R. Hoffmann, Secretary of Army  
Hon. Thomas S. Kleppe, Secretary of the Interior  
Hon. Earl L. Butz, Secretary of Agriculture  
Hon. Robert J. Dole, Senator from Kansas  
Hon. John C. Stennis, Senator from Mississippi  
Hon. Richard H. Ichord, Member of Congress from Missouri  
Hon. Trent Lott, Member of Congress from Mississippi

G. W. Van Gilst, Secretary  
National Forest Reservation Commission  
Room 3016 South Building  
United States Department of Agriculture

Issued November 1977

FINAL REPORT OF THE NATIONAL FOREST RESERVATION  
COMMISSION FOR THE FISCAL YEAR ENDING SEPT. 30, 1976,  
AND SUBSEQUENT ACTIONS TO OCTOBER 22, 1976

By G.W. Van Gilst, Secretary  
National Forest Reservation Commission

The Act authorizing purchases of lands for National Forest purposes, popularly known as the Weeks Law, was signed by President Taft on March 1, 1911. The National Forest Reservation Commission created by the law to oversee this land acquisition activity sent its first report to the President of the Senate on December 6, 1911. Since Sec. 17 of P.L. 94-588 (90 Stat. 2949), October 22, 1976, abolished the Commission and repealed the requirement for an annual report, this report will be the last of an unbroken chain of 66 annual reports the Commission has made to the Congress.

The programs for which this Commission has responsibility have produced some of the most beneficial and far reaching results in the solution of ecological and environmental problems ever achieved in this Nation. In the period covered by these reports, the United States has acquired 21 million acres of land for inclusion in the National Forest System in the Eastern United States. These units now contain over 23 million acres, some lands having been added to the system from the public domain, by donation, and transfer from other Federal agencies.

Lands acquired within the Eastern National Forests were suited to the production of timber and other forest products, but they were mostly in poor condition because of excessive timber cutting, fire damage, and erosion. In the early purchases about one-fourth of the land had been cleared or denuded of tree growth and required reforestation. About half of the acquired land bore some seedlings, saplings, or pole-size trees, none of which were merchantable. Only about one-fourth of the land supported mature timber or young timber of merchantable size.

When the Weeks Law acquisition started, there was no organized forest protection in the Eastern United States and land conservation and rehabilitation programs had not been devised. For the most part these programs had their inception on National Forest land and achieved acceptance and widespread adoption by virtue of their demonstrated benefits on the public lands. As a consequence, National Forests form an important part of the National effort to conserve soil and land resources and promote flood control and regulation of stream flow. They contribute materially to the supply of timber to meet the needs of local industries and the national economy. They help protect and improve the quality of the open space environment near urban and community areas and through demonstration serve to generate the realization of these benefits on other public and privately owned forest and wild land.

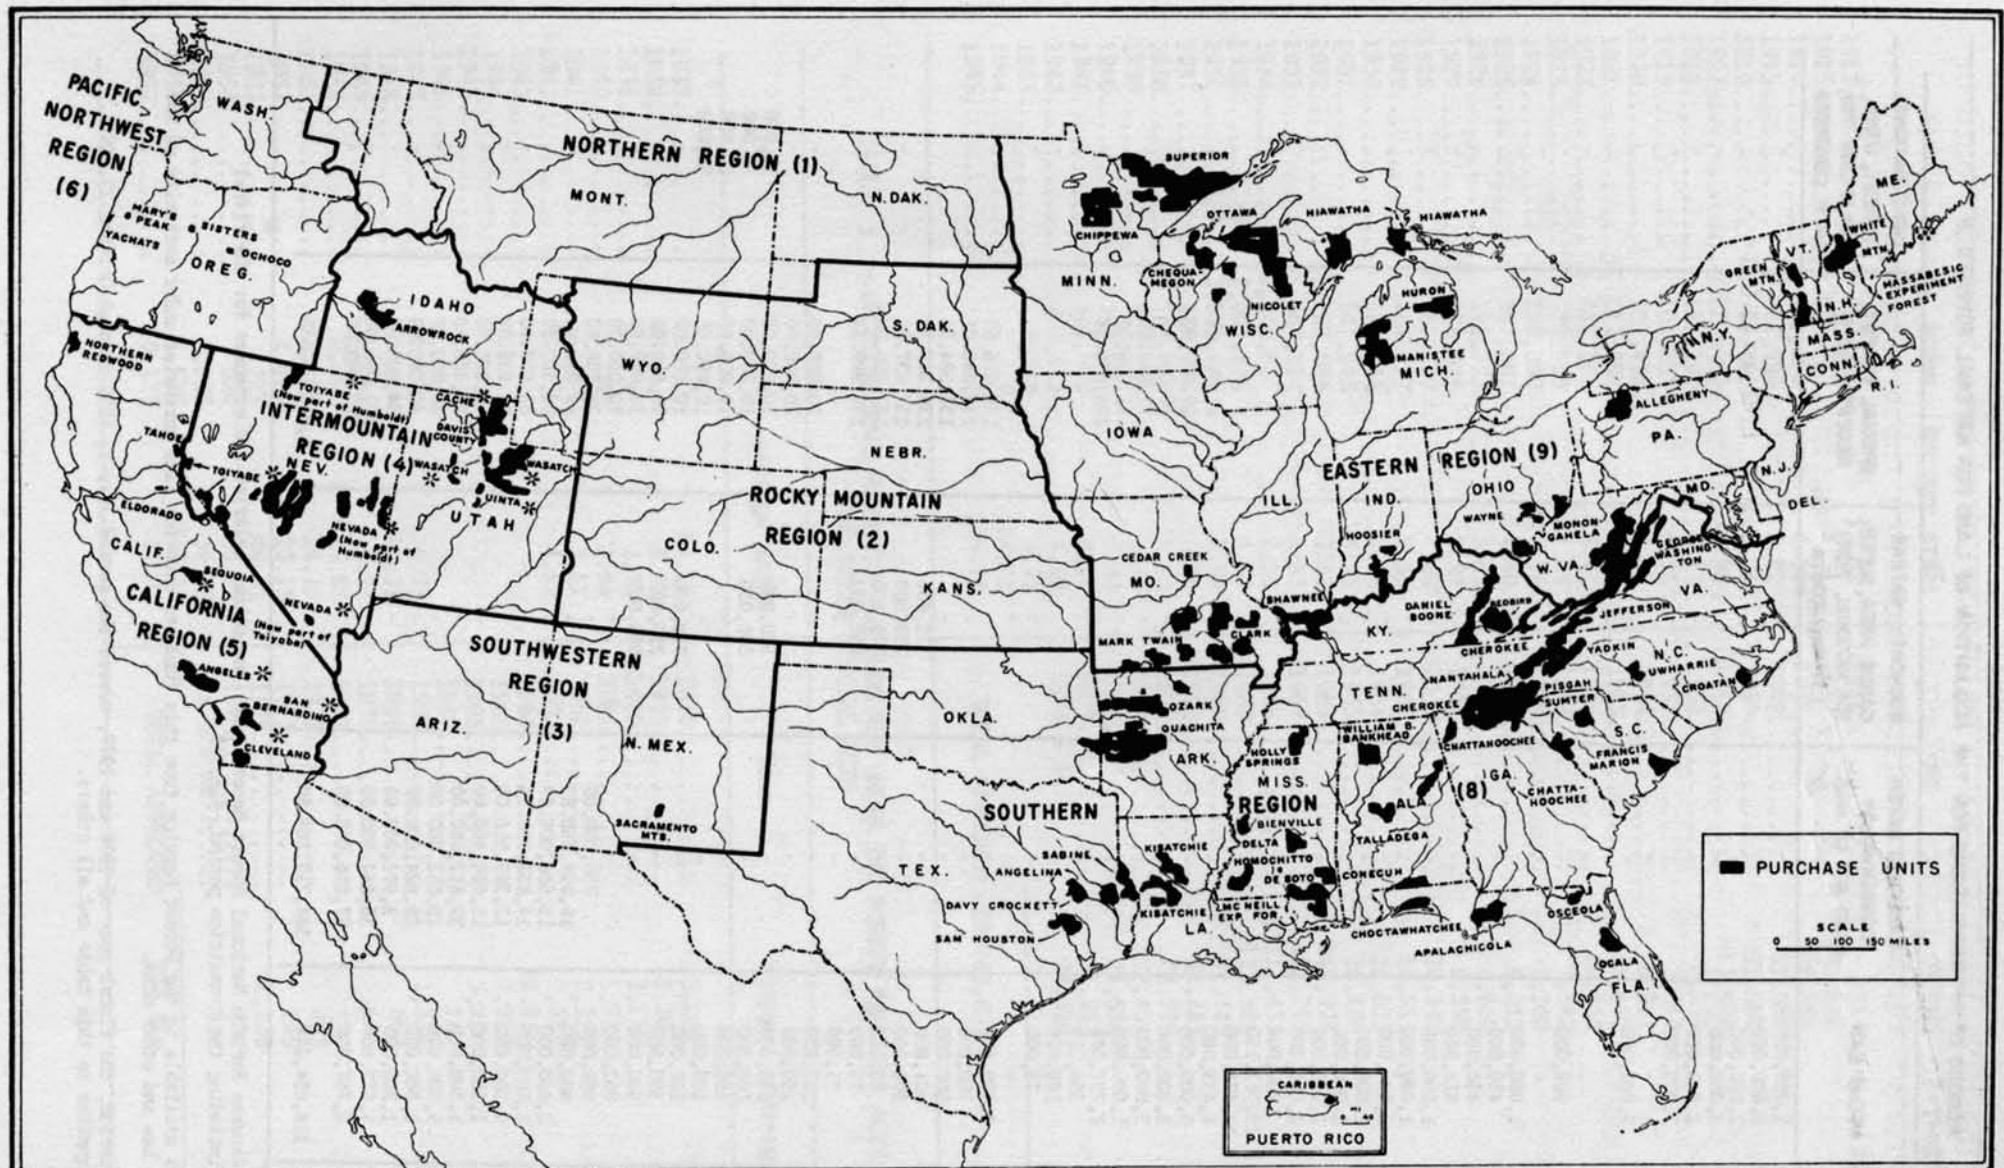

These National Forests furnish varied opportunities for outdoor recreation to large numbers of people. During calendar year 1976, public use of the National Forests, including those withdrawn from the public domain, amounted to slightly over 200 million visitor days. These visits were for picnicking, camping, hunting, fishing, hiking, skiing, canoeing, and other recreational pursuits. The National Forest lands acquired during the 66 years since the first reports of this Commission have materially shared in advancing the objectives of the Congress as set forth in the basic laws and are contributing in many ways to the general welfare.

Congress appropriated \$1,930,000 in fiscal year 1976 and the transition period, for purchase of National Forest lands in accordance with the Weeks Law, as amended. Moneys available from the Land and Water Conservation Fund Act of 1965 were used to acquire key tracts of land within the National Forests under the Weeks Law Authority which were primarily of value for outdoor recreation purposes. The Commission reviewed and approved the transactions where the properties were acquired under authority of the Weeks Act, including purchases from Weeks Law funds and Land and Water Conservation Fund Act moneys. Acquisitions as authorized by the several Forest Receipts Acts were also reviewed and approved by the Commission.

During the fiscal year and transition period, 344 purchase transactions involving 49,215 acres of forest land at an average price of \$290.33 per acre were approved pursuant to the Weeks Law, as amended and under the Forest Receipts Acts. These transactions included 151 tracts totaling 18,724 acres for purchase from Weeks Law funds, 184 tracts totaling 29,591 acres for purchase from money provided by the Land and Water Conservation Fund Act appropriations, and nine tracts totaling 900 acres under the Forest Receipts Acts.

Eighty-seven exchanges were approved whereby the United States will grant 21,902 acres of land or rights to cut National Forest timber on a negotiated basis and will receive 31,043 acres of land inside the National Forests.

Details of the current year's business and the cumulative record of transactions will be found in the tables which follow. All areas shown in the tables are rounded to full acres. Total prices are exact. Thus, averages may be several cents more or less than actual.

NATIONAL FOREST PURCHASE UNITS APPROVED BY THE COMMISSION EXCEPT THOSE  
MARKED "X", WHICH WERE AUTHORIZED BY SPECIAL ACTS OF CONGRESS.
