UNITED STATES
DEPARTMENT OF AGRICULTURE
Office of the Under Secretary

Washington, D.C.
September 7, 1937

Dr. Raphael Zon, Director
Northwest District Regional Forest
Experiment Station
University Farm
St. Paul, Minnesota

Dear Dr. Zon:

I wish to express to you my deep appreciation of your taking the time to make the trip with me last week. I fear that it may have caused you some inconvenience. However, you were able to give me a much better picture of the lake states forest problem than I would have had if you had not been there to instruct me.

The visit that I made to the Experiment Station at Dukes, Michigan, was the greatest demonstration that I have ever seen in the field of constructive forestry.

Again expressing to you my appreciation, I remain

Sincerely yours,

/s/ M. L. Wilson

Under Secretary.
