INDEPENDENT AUDITOR'S REPORT

We have audited the accompanying financial statements of Forest History Society, Inc. (a nonprofit organization), which comprise the statements of financial position as of June 30, 2020 and 2019, and the related statements of activities, functional expenses, and cash flows for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of the Forest History Society, Inc. as of June 30, 2020 and 2019, and the changes in its net assets and its cash flows for the years then ended in accordance with accounting principles generally accepted in the United States of America.

FOREST HISTORY SOCIETY, INC.
Notes to Financial Statements
June 30, 2020 and 2019

1. Organization and Summary of Significant Accounting Policies

A. Description of Organization:

The Forest History Society, Inc. (the "Society") is engaged in collecting, preserving and disseminating the history of forests and all forest-related activities. The Society solicits, receives and acquires gifts of money and other kinds of property to be used for educational and charitable purposes.

B. Basis of Accounting:

The Society prepares its financial statements on the accrual basis of accounting in accordance with generally accepted accounting principles; consequently, revenues are recognized when earned and expenses are recognized when the obligation is incurred.

C. Basis of Presentation:

Net assets and public support, revenues, and expenses are classified based on the existence or absence of externally-imposed restrictions. Accordingly, net assets of the Society and changes therein are classified and reported as follows:

Net Assets Without Donor Restrictions--Net assets that are not subject to externally imposed restrictions. Certain net assets classified as without donor restrictions may be designated for specific purposes or uses under various internal operating budgets or for board designated purposes.

Net Assets With Donor Restrictions--Net assets subject to externally-imposed restrictions that may or will be met either by actions of the Society and/or the passage of time.

The Society reports gifts of cash and other assets as revenue with donor restrictions if they are received with donor stipulations that limit the use of the donated assets. When a donor restriction expires, that is when a stipulated time restriction ends or purpose restriction is accomplished, the net assets are reclassified as net assets without donor restrictions and reported in the statements of activities as net assets released from restrictions.

Some net assets with donor restrictions include a stipulation that assets provided be maintained permanently (perpetual in nature) while permitting the Society to expend the income generated by the assets in accordance with the provision of additional donor-imposed stipulations or a Board approved spending policy.

D. Investments:

Investments are carried at fair value. Fair values are based on readily available market quotes.

E. Cash:

For the purposes of the Statements of Cash Flows, the Society considers all bank deposits to be cash.

F. Accounts Receivable:

Accounts receivable consists primarily of reimbursements due for project expenses. The Society considers accounts receivable to be fully collectible; accordingly, no allowance for doubtful accounts is made. As of the year ended June 30, 2020 and 2019 the Society had \$750 and \$3,550, respectively of bad debt expense.

FOREST HISTORY SOCIETY, INC.
Notes to Financial Statements
June 30, 2020 and 2019

1. Organization and Summary of Significant Accounting Policies (Continued)

G. Contributions:

Contributions received are recorded as increases in without or with donor restrictions net assets, depending on the existence or nature of any donor restrictions. All donor-restricted contributions are reported as increases in net assets with donor restrictions. When a restriction expires (that is, when a stipulated time restriction ends or purpose restriction is accomplished), net assets with donor restrictions are reclassified to net assets without donor restrictions and reported in the statement of activities as net assets released from restrictions.

H. Pledges Receivable:

Unconditional promises to give are recognized as support and assets in the period the pledges are received and are carried at net realizable value if they are to be collected in one year and at fair value if they are expected to be collected in more than one year. Fair value is measured at the present value of the future cash flows. Contributions expected to be collected in more than one year are discounted. Amortization of the discounts is included in contribution revenue. Conditional promises to give are recognized when the conditions on which they depend are substantially met. All pledges are considered fully collectible.

I. Inventory:

Inventory is valued at cost and consists of books, DVDs, and journals.

J. Land, Building, and Equipment:

Land, building, and equipment are carried at cost. Depreciation is provided using the straight-line method over the estimated useful lives of the assets, which are 39 years for the building, 10 years for office equipment, and 5 years for computer equipment and software. The Society's policy is to capitalize property and equipment when acquired at a cost greater than \$1,000.

K. Collections:

Collections include books, articles, pictures, and other items related to forest history. The collection is categorized and maintained at the Society's office.

Collection items acquired either through purchase or donation are not capitalized. Purchases of collection items are recorded as decreases in unrestricted net assets if purchased with unrestricted assets and as decreases in temporarily restricted or permanently restricted net assets if purchased with donor-restricted assets. Contributions of collection items are not recognized in the Statements of Activities. Proceeds from deaccessions or insurance recoveries are reflected on the Statements of Activities based on the absence or existence and nature of donor-imposed restrictions.

L. Deferred Revenue:

Deferred revenue consists of contract revenue in which the services have not yet been provided.

M. Income Taxes Status:

The Society is exempt from federal taxation under Section 501(c)(3) of the Internal Revenue Code; therefore, no income taxes are reflected in the financial statements.

As of June 30, 2020, the Society had no accrued interest or penalties related to uncertain tax positions.

FOREST HISTORY SOCIETY, INC.
Notes to Financial Statements
June 30, 2020 and 2019

1. Organization and Summary of Significant Accounting Policies (Concluded)

The Society has its previous three tax years open to examination by federal tax and state tax jurisdictions. The Society has not been informed by any tax authorities for any jurisdiction that any of its tax years are under examination as of June 30, 2020.

N. Use of Estimates:

The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

O. Functional Allocation:

The costs of providing the various programs and other activities have been summarized on a functional basis in the Statements of Functional Expenses. Accordingly, the identifiable costs have been allocated among the programs and supporting services benefited based on management's judgment.

P. Long-Lived Assets:

Long-lived assets, such as building and equipment, to be held and used are reviewed for impairment whenever events or changes in circumstances indicate that the related carrying amount may not be recoverable. When required, impairment losses on assets to be held and used are recognized based on the excess of the asset's carrying amount over the fair value of the asset. Long-lived assets to be disposed of are reported at the lower of carrying amount or fair value less cost to sell.

2. Pledges Receivable

Pledges receivable consists of the following:

	Pledges Receivable	Carrying Value of Pledges Receivable
<u>June 30, 2020:</u>		
Amounts due in:		
Less than one year	\$ 262,978	\$ 262,978

One to five years	403,461	395,237
	\$ 1,017,728	\$ 1,009,504

Pledges due in more than a year are reflected at the present value of estimated future cash flows using a discount rate of 2% at June 30, 2020 and 2019. All pledges are considered fully collectible and an allowance is not considered necessary.

FOREST HISTORY SOCIETY, INC.
Notes to Financial Statements

4. Disclosure About Fair Value of Financial Instruments

Fair value is defined as the price that would be received for an asset or the exit price that would be paid to transfer a liability in an orderly transaction between market participants on the measurement date. The Society utilizes market data or assumptions that market participants would use in pricing the asset or liability. A three-tier fair value hierarchy is used to prioritize the inputs used in measuring fair value. These tiers include: Level 1, defined as observable inputs such as quoted prices in active markets; Level 2, defined as inputs other than quoted prices in active markets that are either directly or indirectly observable; and Level 3, defined as unobservable inputs about which little or no market data exists, therefore requiring an entity to develop its own assumptions.

The Alliance Bernstein investment has a dynamic asset allocation overlay investment that is considered a Level 2 as it does not trade publicly. The market price is determined internally by Alliance Bernstein using the most recent prices in sales of the same or similar assets.

FOREST HISTORY SOCIETY, INC.

4. Disclosure About Fair Value of Financial Instruments (Continued)

The following tables set forth the financial assets and liabilities as of June 30, 2020 and 2019 that were measured at fair value on a recurring basis by level within the fair value hierarchy. Assets and liabilities measured at fair value are classified in their entirety based on the lowest level of input that is significant to their fair value measurement:

	Balance at June 30, 2020	Fair Value Measurements Using		
		Level 1 Quoted Prices in Active Markets for Identical Assets	Level 2 Significant Other Observable Inputs	Level 3 Significant Unobservable Inputs
Alliance Bernstein Investments	\$ 7,838,133	\$ 5,893,906	\$ 1,944,227	\$ 0

	Balance at June 30, 2019	Fair Value Measurements Using		
		Level 1 Quoted Prices in Active Markets for Identical Assets	Level 2 Significant Other Observable Inputs	Level 3 Significant Unobservable Inputs
Alliance Bernstein Investments	\$ 8,236,870	\$ 6,279,634	\$ 1,957,236	\$ 0

5. Endowment

The Society's endowment consists of 23 individual funds established for a variety of purposes. Its endowment includes donor-restricted endowment funds. As required by generally accepted accounting principles (GAAP), net assets associated with endowment funds including funds designated by the Board of Directors to function as endowments, are classified and reported based on the existence or absence of donor-imposed restrictions.

Return Objectives and Risk Parameters

The Society has adopted investment and spending policies for endowment assets that attempt to provide a predictable stream of funding to programs supported by its endowment funds while seeking to maintain the purchasing power of the endowment assets. Endowment assets include those assets of donor-restricted funds that the organization must hold in perpetuity or for a donor-specified period(s). Under this policy, as approved by the Board of Directors, the endowment assets are invested in a manner that is intended to produce results that exceed the price and yield of appropriate market indexes while assuming a moderate level of risk. The Society expects its endowment funds, over time, to provide an average real rate of return of approximately six percent annually. Actual returns in any given year may vary from this amount.

Strategies Employed for Achieving Objectives

To satisfy its long-term rate-of-return objectives, the Society relies on a total return strategy in which investment returns are achieved through both capital appreciation (realized and unrealized) and current yield (interest and dividends). The Society targets a diversified asset allocation that places a greater emphasis on equity-based investments to achieve its long-term return objectives within prudent risk constraints.

5. Endowment (Continued)

Spending Policy and How the Investment Objectives Relate to Spending Policy

The Society has a current policy of appropriating for distribution up to 5 percent of its endowment fund's average fair value over the prior 12 quarters through the calendar year-end preceding the fiscal year in which the distribution is planned. In establishing this policy, the Society considered the long-term expected return on its endowment. Accordingly, over the long-term, the Society expects the current spending policy to allow its endowment to grow one to four percent annually. This is consistent with the Society's objective to maintain the purchasing power of the endowment assets held in perpetuity or for a specified term as well as to provide additional real growth through new gifts and investment return.

Funds with Deficiencies

From time to time, the fair value of assets associated with individual donor-restricted endowment funds may fall below the level that the donor or the North Carolina State Prudent Management of Institutional Funds Act (SPMIFA) requires the Society to retain as a fund of perpetual duration. In accordance with GAAP, deficiencies of this nature that are reported in net assets without donor restrictions were \$57,008 and \$8,086 as of June 30, 2020 and 2019, respectively. These deficiencies resulted from unfavorable market fluctuations that occurred during the year and continued appropriation for certain programs. Both the deficiencies and the appropriations from accounts with deficiencies were considered by the Board of Directors in its evaluation and review of its responsibility under SPMIFA.

Interpretation of Relevant Law

The Board of Directors of the Forest History Society has interpreted SPMIFA as requiring the preservation of fair value of the original gift as of the gift date of the donor-restricted endowment funds absent explicit donor stipulations to the contrary. As a result of this interpretation, the Forest History Society classifies as permanently restricted net assets (a) the original value of gifts donated to the permanent endowment, (b) the original value of subsequent gifts to the permanent endowment, and (c) accumulations to the permanent endowment made in accordance with the direction of the applicable donor gift instrument at the time the accumulation is added to the fund. The remaining portion of the donor-restricted endowment fund that is not classified as permanently restricted net assets is classified as temporarily restricted or unrestricted net assets until those amounts are appropriated for expenditure by the organization in a manner consistent with the standard of prudence prescribed by SPMIFA. In accordance with SPMIFA, the Society considers the following factors in making a determination to appropriate or accumulate donor-restricted endowment funds:

- (1) The duration and preservation of the fund
- (2) The purposes of the Society and the donor-restricted endowment funds
- (3) General economic conditions
- (4) The possible effect of inflation and deflation
- (5) The expected total return from income and the appreciation of investments
- (6) Other resources of the Society
- (7) The investment policies of the Society

7. Long-term Debt

The Society entered into a promissory note with Paragon Bank for construction on a new building in November 2017. The note allows for the Society to draw up to \$4,500,000 for construction. The note calls for payment of principal in November 2022 and quarterly interest payments at 3.7% starting in March 2018. The loan is secured by substantially all assets of the Society. As of June 30, 2020 and 2019, the Society loan has a balance of \$444,475 and \$1,100,203, respectively.

8. Retirement Plan

The Society participates in a defined contribution retirement plan administered by Teachers Insurance and Annuity Association-College Retirement Equities Fund. All full-time, permanent staff are eligible after one year of employment. Employees must contribute 5% to the plan and the Society contributes 10%. Contributions by the Society on behalf of employees were \$45,798 and \$42,373 for the years ended June 30, 2020 and 2019, respectively.

9. Concentration of Risk

The Society maintains deposit accounts at two local financial institutions. Accounts are insured by the Federal Deposit Insurance Corporation (FDIC) up to \$250,000. At June 30, 2020 and 2019, the amounts that exceeded the FDIC limit were \$424,049 and \$544,236, respectively.

Investments held by the Society are held at one brokerage company. The investments are protected by SIPC (Securities Investors Protection Corporation) up to \$500,000. The broker has also obtained excess coverage from a commercial insurer that provides up to \$24,500,000 in additional coverage.

13. COVID-19

As a result of the COVID-19 coronavirus, economic uncertainties have arisen which may negatively impact contribution, program, and investment income of the Society going forward. The Society received a Paycheck Protection Program (PPP) loan of \$109,700 and a \$8,000 Economic Injury Disaster Loan (EIDL) advance in April 2020. The Society is recording loan forgiveness revenue as the PPP funds are spent on qualifying expenses. The Society expects all of the loan to be forgiven less the \$8,000 of EIDL advance. The Society has spent \$93,729 in qualifying expenses during the year ended June 30, 2020 and has recorded the equivalent amount of loan forgiveness as revenue in the year ended June 30, 2020. The Society expects to apply for forgiveness once the final regulations are issued. The balance of the SBA loans at June 30, 2020 was \$23,971.

14. Subsequent Events

Management of Forest History Society evaluated subsequent events through September 16, 2020, which is the date the financial statements were available to be issued. They discovered no subsequent events that should be disclosed, except as described above.
